

Visitation Update

10/20/2020

WHAT TO EXPECT AS THE WEATHER CHANGES

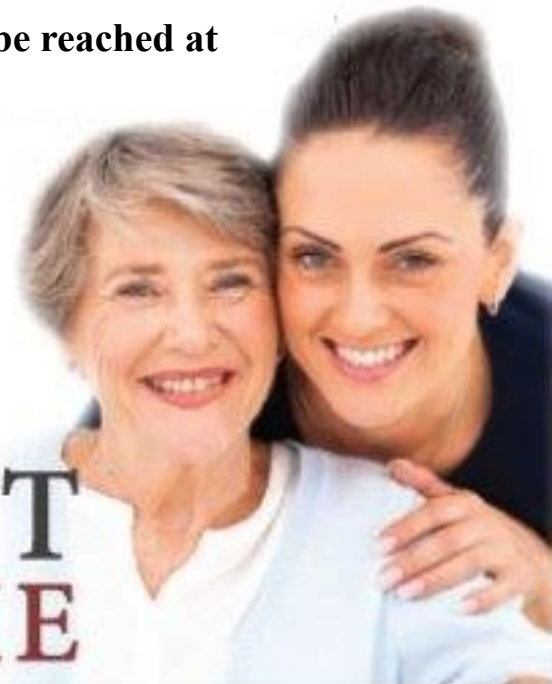

To protect our residents, staff, and visitors our facility must be COVID free for 14 days to accommodate indoor visits. As we continue to move into the autumn and winter months we recognize the concern of weather conditions and temperatures when only outdoor visits are being scheduled. Canopy tents with three side walls will be available for visitors and or residents to help protect from the elements. The tents can be set up for visitors to have shelter while visiting at a designated window visit area or while visiting with a resident outside. To ensure accommodations can be made please continue to call & schedule when you would like to visit. Window visits can be scheduled any day of the week where as visits involving residents coming outside are being scheduled Monday-Friday 9-5.

We would like to ask that visits are scheduled the day prior so that we are able to set up any tents for you and the resident and to ensure you are able to visit at your desired time as our visitation calendar fills up fast. Two way speakers are available to use for any visit scheduled.

We are excited to share Kim Regehr is our new Visitation Coordinator.

Kim will be scheduling and assisting with visits. She can be reached at 620-585-6411.

RESIDENTS WHO'VE HAD OR MAY HAVE HAD COVID EXPOSURE WILL BE IN PPE DURING VISITS TO HELP PROTECT YOU FROM POSSIBLE EXPOSURE
