

PVH Visitation Policy

How do I schedule visitation?

Contact our Visitation Coordinator, Kim Regehr, at 620-585-6411 between the hours of 8 – 4. Visits are scheduled between 8am to 8pm, 7 days a week. The doors will be locked after 5pm during the week and through the weekend. Please ring the door bell and we will assist you.

Indoor visitation, what can I expect?

Indoor visitation with friends and family is available in the resident room for those residents who are fully vaccinated (2 weeks or more after the second dose of a 2 shot series; or 2 weeks or more after a single shot series). We have designated visiting areas in each neighborhood for those residents who are not vaccinated. Residents may have 2 guests at a time for indoor visits. Please ring the call light if you need assistance. Do not wonder the halls looking for a nurse, social worker, business office, etc..

Outdoor visitation, what can I expect?

Outdoor visitation for friends and family is available. We have designated areas outdoors to accommodate visits with up to 10 individuals at one time for the Resident.

Is there an age restriction for visitation?

There is no age restriction for outdoor visits. Children aged 13 and older may come to indoor visits, however, all individuals age 3 and older must wear a mask covering their nose and mouth while at PVH. Children must be in control of the adult that they are with.

What if I want to hug my loved one during the visit?

If the resident & visitor(s) are fully vaccinated, they can choose to have close contact (including touch) while wearing a well-fitting face mask and performing hand hygiene before and after. Visitors must also keep their face covering on. If the visitor(s) are not fully* vaccinated and the resident IS, the safest approach is for everyone to maintain physical distancing and to wear masks. However, if the resident is fully vaccinated, the resident can choose to have close contact (including touch) with their unvaccinated visitor(s) while both continue to wear well-fitting source control. If vaccination status cannot be determined the best practice will be for physical distancing and for everyone to wear a mask.

How will I be able to communicate if anyone is hard of hearing?

We have two-way speakers available to use at any type of visit. When scheduling, be sure to mention you would like to use the speakers and we will have them ready for you.

Can I bring items for the resident to the visit?

Yes, please keep in mind that all items that enter the building are sprayed with chemicals to sanitize. We ask that you do not bring food and drinks to be consumed during the visitation. You are welcome to bring these items and the resident can enjoy them later.

How long can I stay for a visit? Is there a limit on how often I visit?

Visits are scheduled for 60 minutes. You are welcome to schedule more than one visit a week while being mindful of other residents and their loved ones.
